

AI & Tech Program · v1.0 · JULY 2026

Founding AI & Tech Partner Program

*Turning AI tools into revenue engines in the Creator Economy
- the AI distribution and monetization layer*

Target: €250,000 Pool

2.5% annual profit share · capped at 5x return

Live: staging.dzply.com/partners/aitech

THE PROBLEM

AI Creates Content — It Doesn't Create Revenue

AI and tech companies are winning on technology, but losing on distribution and monetization

- Distribution limited to SaaS and self-serve channels
- Low monetization per user
- Weak creator adoption of standalone AI tools
- No embedded revenue loops connecting usage to income

Result: most AI tools are used — but not monetized

THE SHIFT

The Creator Economy Is Evolving

FROM

- Manual content creation
- One-off brand deals
- Tool-based workflows

TO

- AI-generated content
- Automated engagement
- Monetized creator systems

AI is not the product anymore - it's the engine. The missing layer is a system where AI tools generate content, engage audiences, convert users and create revenue

THE SOLUTION

dzply = AI Monetization & Distribution Layer

This layer does not exist yet — dzply. is building it

1

AI-Powered Creator Workflows

Your models and tools embedded directly into real creator workflows, not left as standalone utilities

2

Automated Engagement

Chat, voice, and video interactions that run continuously - every interaction becomes a monetization opportunity

3

Revenue Generation

Subscriptions, content, calls, and commerce - your AI tools become embedded revenue engines inside creator ecosystems

HOW IT WORKS

Inside dzply

01

Creators use AI tools (video, voice, chat, image)

02

AI generates and automates content and interaction

03

Fans engage via monetized channels

04

Revenue is generated continuously

CHANNELS

- Exclusive API integration of your LLMs, compute, and inference into the dzply platform
- Automated distribution to dzply's roster of active creators
- Embedded workflows inside the dzply Visual Automation UI
- Direct access to creators and agencies already using the platform

WHY THIS MATTERS

We Solve Your Biggest Growth Problems

Usage

More creators using your API, more often

Revenue

Monetization tied directly to usage

Distribution

Direct access to creators and agencies

- Increase usage: more creators on your API, higher interaction frequency
- Unlock monetization: revenue tied to usage, new business models beyond subscriptions
- Expand distribution: direct access to creators and agencies, embedded into real-world workflows

FOUNDING PARTNER PROGRAM

Target: €250,000 Pool — 5 Slots

Founding AI & Tech Partner

€50,000 minimum

5 slots available

Participants receive a 2.5% annual profit share from dzply's global earnings, until a 5x return on their initial investment is fully reached

WHAT YOU GET

- Exclusive early API integration into the dzply platform architecture
- Automated distribution to dzply's roster of high-conversion creators
- Embedded workflows inside the dzply Visual Automation UI
- Co-marketing, case studies, and joint launch campaigns
- Product feedback loop and influence on the platform roadmap

ILLUSTRATIVE EXAMPLE

How You Make Your Money Back

- Your models/tools are embedded directly into live creator workflows on dzply
- Usage scales with dzply's own creator and agency growth (see the main financial model for platform-wide projections)
- Revenue share is earned on your allocation across dzply's global earnings, not on a single product line

This program is a strategic distribution and revenue-share partnership, not a per-transaction licensing deal

Illustrative example based on typical usage patterns — individual results depend on execution, niche, and market conditions, and are not guaranteed.

- 2.5% annual profit share from dzply's global earnings, capped at a 5x return on your contribution

Independent Signals Confirm Demand Before We've Even Launched

Founder-led demand signal

Prior to founding dzply, I personally initiated, led, and closed the commercial groundwork for a €600,000 commitment from a strategic industry partner for an AI-powered creator platform — including the concept, the platform build, and the investor demos. Direct evidence of demand for this category, generated independently of any funding

Comparable raised \$1M pre-seed

YouPop.ai recently raised \$1,000,000 in pre-seed funding to build AI infrastructure for the next generation of creators — confirming investor appetite for this category

Together, these signals confirm strong commercial demand for creator monetization, content automation and AI infrastructure — and dzply. enters with a platform already in build, reducing execution risk

WHERE WE ARE TODAY

Built by an 8-Year Team, Launching September 2026

Open Beta launches September 2026. All core AI Workforce, Workflow Automation features and 18 AI agents are individually built and functional; full-system integration and end-to-end QA are underway

Sandro Anthonio

CEO | Founder | Technical Engineering Lead

22+ years in online entertainment, building, scaling and monetizing digital platforms and products. Past 2.5 years spent designing Web3-powered ecosystems and next-generation digital experiences.

Jana Pochybova

COO | Operations

8+ years as an operations manager — team coordination, workflow management and day-to-day business operations. Past 2 years managing a creator agency, supporting creators' growth and long-term careers.

NEXT STEPS

- 30-minute intro call
- Use-case & revenue opportunity breakdown
- Onboarding & activation

Align Your Technology With the Infrastructure Layer for the Creator Economy

We are onboarding a limited number of founding AI & Tech partners. If relevant: let's explore integration, define the terms, and align on next steps
